CELEBRATING THE CENTENNIAL OF THE NEW YORK CITY TAXI
Design Trust for Public Space’s Taxi 07 puts spotlight on NYC icon

NEW YORK (March 1, 2007) – In honor of the 100th anniversary of the modern-day taxi in New York City, the Design Trust for Public Space is bringing attention to this significant city symbol through its Taxi 07 project.

Taxi 07 will celebrate the taxi’s centennial, foster design innovation and develop a taxi system strategic plan in partnership with the New York City Taxi & Limousine Commission. The project culminates in April with a series of special events.

The centerpiece of the Taxi 07 project is an exhibit at the 2007 New York International Auto Show from April 6-15 that will showcase the contributions of automotive, design, technology and academic partners. The Taxi 07 Exhibit, presented by Standard Taxi, will feature several taxi prototypes, along with taxi-related installations and displays, which collectively highlight innovations in sustainable mobility, accessibility, and good design.

Additionally, Mayor Michael R. Bloomberg has designated “Taxi Week” in New York City from April 6-15, and the Empire State Building will be illuminated with commemorative yellow lighting on the evening of April 4.

Highlighting the taxi’s role in popular culture, IFC Center will host a month-long film series during weekends in April. A look back at the most memorable cabs and cab drivers on celluloid, films will include: Speedy, Taxi Driver, Midnight, Mona Lisa, Taxi!, 99 River Street, and Night on Earth.
